Greeting from NCHD-IT Centre.

Nagaland Centre for Human Development and Information Technology (NCHD-IT) was registered under the Societies Registration Act, Government of Nagaland in 2000.

This year 2018 – 19 has been a rewarding year for NCHD-IT Centre. In this year, we have been able to positively impact the lives farmers in Kiphire District and Mon District, Nagaland. A lot of planning and effort has been undertaken to realize our goals of ensuring farmers in NCHD-&IT support programs have access to success and quality education brings the farmers a good remarkable positive results in farming. We also work to expand extension the farming cultivation we introduce Black pepper cultivation another main livelihood and making sure it successful.

As livelihood is the backbone of this program this figure is particularly encouraging as it means the NCHD&IT Team has been able to work with farmers to ensure that they are on their way to economic independence and security. The collaborative effort through the year has helped us put “the best interest of the farmers in the market platform”. NCHD&IT has tied up market with Arkha Argo Farmer Producer Company Limited all the products like large cardamom, black pepper, tea, maize, rajma etc the company will buy from the farmers.

Education capacity building strengthening structure and processes in kiphire primary school is going very well. Number of children supported through this program to attend learning center we could reached out 200 children from four primary school. Due to funds limitation we can't increased more school. Looking forward we get more support from the funding agencies to targets more schools and reach out more children providing them the best education.

We have been proud of the fact that the State Government of Nagaland, Wipro Foundation, Vikramshila Organization, Child Help Foundation and NABARD are our main support. We want to bring more value to their unstinted support. We also hope to garner the support of more h donors, institutional donors in the future. We could also tap the new CSR initiatives.

In all these years, we have been unwavering in our mission to assist and support the women, farmers, youth and children. We hope that with the proposed change in the future we can make real difference in the lives of our fellow citizen from weaker section.

Our team would like to thank you for taking the time to engage with NCHD-IT Centre.

Faith and good will

Yashimenla Lemtor Director
NCHD-ITCentre.

MISSION

We engage with individuals, families, and community groups by facilitating knowledge, skills, and resources, encouraging their active participation to unlock their potential and drive meaningful, lasting change.

VISION

To inspire and empower individuals and community groups to unlock their full potential and create meaningful, lasting impact.

IMPACT OF THE ORGANISATION

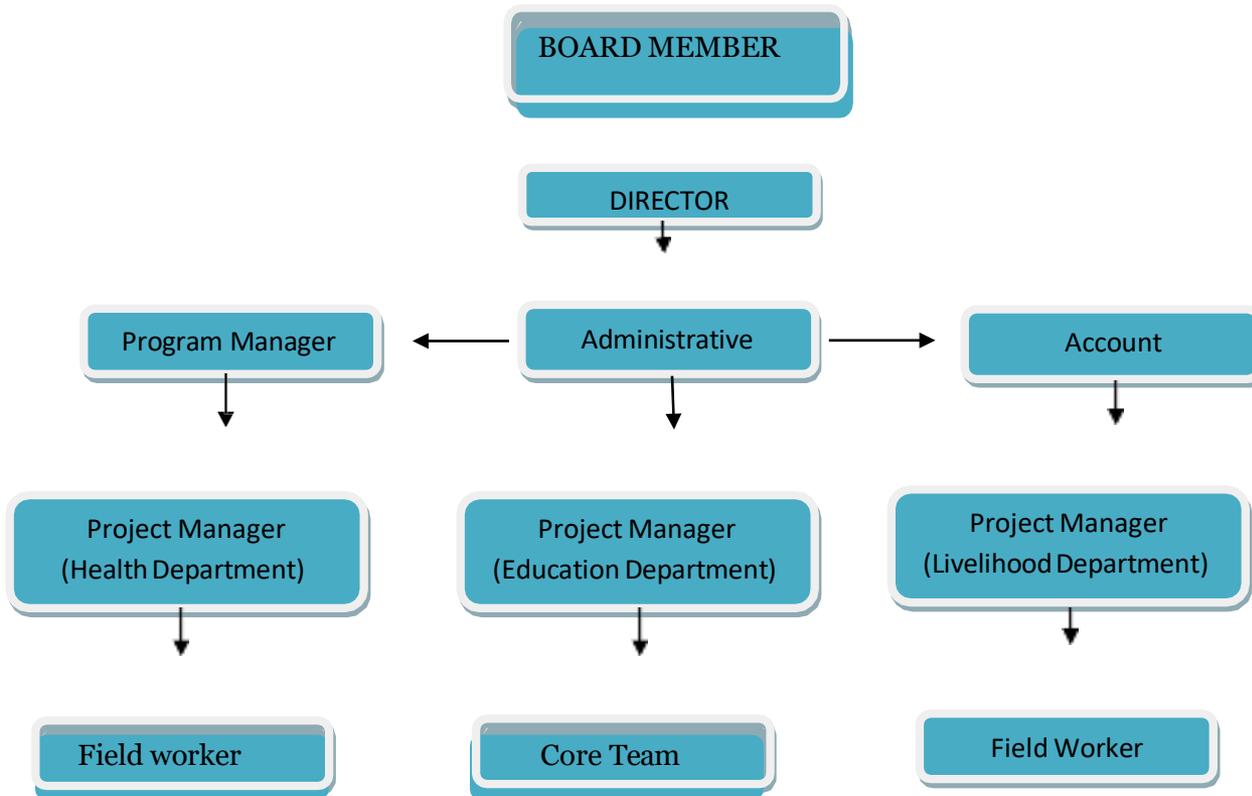

The impact of all its programmes remains on providing people a helping hand and a working environment conducive to team, grow and act. It aims at enabling people to realize their full potentials and empowering them to execute programmes of their development by thinking together, planning together and acting together.

For this purpose, it tries to mobilize people to shoulder responsibility through creating awareness, changing attitudes, building and enhancing their capabilities.

PRIORITY AREA

From very beginning we, at NCHD&IT , believe that development has to be holistic , to bring real fruits to the root needy , public health, education , women empowerment , community development, Environment , Communication and Information Technology , Entrepreneurship and Entrepreneurial development , Care of the aged, disabled and destitute and social welfare continue to be prime areas of our work. We wish to bring sustainable change on the ground by focusing our energies in these sectors as well as building our understanding about related issues. We, at NCHD&IT, firmly believe that a conducting and productive environment cannot be achieved unless all parameters of the development equation are adequately addressed.

Organization Structure

LIVELIHOOD

- (a) **ORGANIC LARGE CARDAMOM CULTIVATION:** Cardamom cultivation is one the major activity taken up by the Joint Liability Groups in two districts of Mon and Kiphire since from 2011. Harvesting is going on this year 2019 result is good so far. Some place like Kiphire village a bit warm area harvesting started it will continue till the month of November. The farmers are now aware and having a vast knowledge on cardamom cultivation. The supplying of sucker cardamom from Kiphire district are now disturbed to other district of Nagaland. Cardamon has become a huge success which now the other district are adapting it and following it.

BLACK PEPPER CULTIVATION

Black pepper cultivation is a new crop for our people and the state, so with the people of this district Kiphire. We are encouraging the farmers to cultivate Blackpepper. Kiphire will be the right place for cultivation the Soil Requirement Pepper Farming: Black papper can be cultivated on wide variety of soils like redloan, clay loam and sandy loam soils. However, virgin soils rich in matter) content and well drained are ideal for black pepper cultivation. For better yield soil should have pH value of 5.0- 6.5. This program was supported by NABARD and Spice Board of Nagaland.

Support Education Program

This programme is partnership with Wipro Foundation . Work with schools to improve quality of education and with community to strengthen their ownership and engagement with schools and education. We are working in four primary government schools in Kiphire District Nagaland as a pilot project. NCHD&IT Core team has put and affords working the best to come out with good result. Comparing to earlier situation now at present children has improved a lot. There are some children who have incurred strong bond with the learning center who don't want to miss the class We are trying our best building relationship with the children parents slowly to make them understand how important education is. Surprised to find some children now can speak English and understand English after the learning center has set up.

ACTIVITIES GALLERY :

Two Days Training on Packaging and Practises of Black pepper cultivation to Joint Liability Group Members, Kiphire District, Nagaland

Black pepper plants were distributed to 8 villages one each as a sample and demonstration to plants in their village.
